(Project/Title)

#### GENERAL

Irrigation systems shall be installed in accordance with a design and plan approved by the responsible technician. Details of construction shown in the design and plan but not included here shall be considered as a part of this specification. Construction activities shall be in accordance with applicable OSHA regulations.

#### PIPELINES

Pipeline materials and installation shall meet the requirements of Wyoming Construction Specification for Irrigation Pipelines for the respective pipe material or materials specified.

#### STRUCTURE FOR WATER CONTROL

Structures shall be of the type and materials shown on the construction drawings or as listed in ADDITIONAL SPECIFICATIONS and shall meet the requirements of applicable Wyoming Construction Specification for Structure for Water Control.

#### PUMPING PLANT

The pumping plants when noted on the drawings shall meet the requirements of Wyoming Construction Specification WY-533 Pumping Plant for Water Control.

#### OTHER COMPONENTS

Other individual system components shall meet the requirements of the specific construction specification listed on the drawings or in ADDITIONAL SPECIFICATIONS.

#### ADDITIONAL SPECIFICATIONS
